To the Commissioner for Patents,

The office action of 22 August found my correspondence of 11 July and 25 June '08 as non compliant.

Concerning 1. Amendment to the specification.

The amended values filed 26 June do include amendment markings. The amendment is in response to item 3 of the 26 March 08 action.

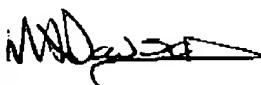

Please note that my communication filed 24 October 07 has already amended the filter values to as when originally filed, in response to item 3 of the 31 July 07 action.

The pages of specification with bracketed numbering filed 11 July and 25 June '08 show unmarked, original filter values. However, they are not in support of the amendment. They are in support of my reply filed 25 June '08. It refers to bracketed paragraph numbers of the original specification.
The amendments to filter values as originally filed are again enclosed.

Page 1 of the response filed 25 June '08 has been filed separately on 11 July due to fax print error.
That response is here re-included for reading with reference to the bracketed paragraph numbers of the original specification.

Concerning 4.

A complete claim listing is enclosed.

M. Dawson.
